

I'm a case manager that works out of my vehicle for the majority of my workday. I take clients that are severe & persistently mentally ill to local resources & they hear K-Love on my radio. The message K-Love provides to me alone is outstanding; but it also adds an extra ministry to some spiritually depleted people that might otherwise not hear the message. The message is delivered in music form that is pleasant to listen to and uplifting. It would be an enormous loss to not have K-Love on the FM station I enjoy.
